

Please record the numbers of clients served in each county by your organization from the attached Listing of Service Area, Services Provided and Number of Clients Served form in the appropriate county on the above map. For example, if your organization serves a total of 347 clients in Chatham County, find Chatham County on the map and write the number 347 in that space. Please DO NOT write "0" on a county where your organization did not provide services. Just leave it blank.
